

Day Trip to Heidiland / Tagesausflug Heidiland

Saturday, September 30, 2017

Discover the land of Heidi! The mountain region in the south east of Switzerland, is rich of natural and cultural beauties, many of them seem to be forgotten.

On our day trip we discover an area full of medieval castles and churches, and picturesque villages, embedded in a vast bucolic landscape of pastures, forests, and mountains. The e-bikes, i.e. bikes

with electrical motor, allow us to cruise around smoothly and swiftly, and to reach places which are not accessible by car. Occasionally we stop to visit a monument or at a place with a nice view for a break.
